Page	1/1

**Product Number** : 20918  
**Description** : Medium for Glass Enamel  
**Composition** : Mix of Glicol Ether

## CHARACTERISTIC

**Viscosity** : 23 - 27 °C ; 70 Ku  
(And V. SV 10)  
**Grindometer** : N/A  
**Density** : 1,00 – 1,20 gr/cm<sup>3</sup>  
**% Solid Contains** : 180 °C; % 10

<b>Color Settings</b> (62 - 64 polyester mesh) (CR 10)	:	L	Clear
		a	Clear
		b	Clear

Product Resistancy: : Good

## APPLICATION

**Screen Printing** :Add %2 - %7 for application  
**Roller Coater** : Add %7 - %10 for application  
**Spray Application** Add %20 - %30 for application  
**Ambient Temperature**:18-25 °C

**Storage** :Under normal conditions(limited change of temperature moderate temperatures of 20-25 °C humidity 20-70 %).We guarantee a self life of 24 mounts for standart color. Shades and 6 mounts for metallic shades opened cans should be sealed firmly and stared under absence of sun light or other sources.
